**March 2018**

CCSF's Career Services and Career Development Counseling Departments launched College Central Network (CCN) in mid-February. CCN is a new, interactive, online career services platform that connects job seekers to internship and employment opportunities using simple, all-device friendly tools that are both powerful and easy to use.

- **Students** were pre-registered in CCN and received an email in mid-February inviting them to complete the registration process.
- **Alumni** also have access to the system through a single online portal.
- **Employers** are invited to register to post jobs and attend career events at CCSF.

CCN is administered by CCSF Career Services in collaboration with the Career Center. Each department can request a CCN admin login to share program-specific career services information with students, alumni, and employers.

All CCSF Work Experience faculty will also have access to CCN's Experiential Learning Manager, which will digitize our Cooperative Work Experience forms, approvals, and communications among faculty, students and employers.

Contact [careerservices@ccsf.edu](mailto:careerservices@ccsf.edu) for more information.

*CCSF's College Central Network is supported by Strong Workforce Program funding, to improve work-based learning, employment connections, and earnings for CCSF students and completers.*
