Goals for CPAC Black Children/Families Committee for 2024-25

Black Children/Families Committee is expanding on CPAC Strategic Plan goals.

Finalize the specific things the Black Children/Families Committee will work on this year. (2-3 goals)

Brainstorm:

- Targeted outreach to Black teachers? Report back on what the result of the targeted outreach.
- Workforce Registry – CPAC create a registry of info on Black educators, track their support wherever they are.
- Survey – parents would know where Black educators are, we could track best practices.
- Resource guide for black families and black educators – know where they are and what they are doing. Which agencies have parent advisory groups? All Head Starts are mandated to have parent advisories. Showcase more programs, get people to talk about what happening in their agency.
- Conference or gathering next year – address the situation in SF with Black families, agencies, higher education. Convene all the stakeholders.
- Survey CPAC Members and community about best practices for Black children and families. What are CPAC members doing to support Black families? What are they willing and committed to do?

Next Steps:

- Dr Sullivan to draft the 2-3 goals.
- Circulate goals to the rest of the committee.
